

Hydraulic Technician

CTS Trailers, a leading manufacturer of truck and trailers is seeking a skilled **Hydraulic Technician** to maintain, repair, and troubleshoot hydraulic systems on trucks and trailers. The ideal candidate will ensure all hydraulic components operate safely and efficiently in a fast-paced production and service environment.

Key Responsibilities:

- Conducting routine inspections and preventative maintenance.
- Replacing or repairing defective hydraulic parts.
- Testing hydraulic equipment and systems to ensure proper function.
- Fabricating and installing new systems.

Requirements:

- **Education:** A high school diploma or equivalent is required. Vocational training, a certificate, or an associate training in hydraulics or a related mechanical field.
- **Experience:** Typically, 3–5 years of experience in hydraulic systems, maintenance, or a similar mechanical role.
- **Technical Skills:** Ability to read and interpret hydraulic schematics, diagrams, and blueprints.
- **Diagnostic Skills:** Proficiency in using diagnostic tools to troubleshoot and repair components like cylinders, pumps, valves, and motors.
- **Knowledge:** of low-pressure hydraulic systems 190 bar (advantage) of hydraulic power pack systems 24V (electrical over hydraulic advantage)
- **Physical and Other Requirements:** Ability to lift heavy materials, work in a shop or field environment, and possess a valid driver's license.
- **Flexibility:** Willingness to work overtime or be on call for emergency breakdowns.

To apply, please send your detailed CV with a certified copy of your ID and proof of qualification to karla@hrmconnect.co.za
